Education

IILM University, **B.Tech Computer Science & Engineering (AI/ML)** Greater Noida, Uttar Pradesh
Aug 2025 – Present

Lucknow Public School, Higher Secondary (12th) Lucknow, Uttar Pradesh
Apr 2023 – May 2024

Work Experience

Web Development Intern JUN 2026 – AUG 2026
IBM (Carrier and Education)

- Developed responsive web interfaces using HTML, CSS, Tailwind CSS, JavaScript, and React.js.
- Built backend functionality using Node.js and Express.js, including routing, middleware, request handling, and form data.
- Worked with MongoDB, Mongoose, and RESTful APIs, implementing CRUD operations and secure authentication workflows.
- Developed a weather application with an interactive frontend, integrating APIs to fetch and display real-time weather information.

Projects

NetSage AI — AI-Powered Network Troubleshooting
Live Preview — GitHub

Tech: Python, AI/LLM, Cisco Packet Tracer, HTML, Tailwind CSS, JavaScript, Gemini AI API

- Developed an **AI-assisted network troubleshooting** system to **analyze symptoms** and **network evidence**, identify **root causes**, and recommend diagnostic steps**.**
- Implemented a deterministic **Python rule** checker to detect configuration issues such as **duplicate IPs**, **incorrect subnet masks**, **gateway mismatches**, **missing VLANs**, and **missing routes**.
- Designed a responsible **AI workflow** with **human review**, dashboard evaluation, and **verification**, covering **30 Packet Tracer troubleshooting cases**.

Weather Web Application
Live Preview — GitHub

Tech: HTML, Tailwind CSS, JavaScript, REST API

- Created a weather web application that fetches and displays **real-time weather information** through **API integration**.
- Implemented dynamic weather data handling using **JavaScript**, providing users with an interactive and responsive experience.
- Designed a clean**, user-friendly interface** for searching and viewing **weather conditions** based on the **selected location**.

Personal Portfolio Website
Live Preview — GitHub

Tech: Tailwind CSS, HTML, JavaScript

- Developed a responsive personal portfolio website to **showcase projects, technical skills, education,** and **experience**.
- Designed a clean and user-friendly interface with responsive layouts and interactive elements for an engaging browsing experience.

Achievements

- Built a professional network of 500+ connections on LinkedIn.
- </> Participated in the university-level Ignite Tech Fest in a competitive debugging programming event**.**

Skills

Languages: C, C++, Python (basics), JavaScript, HTML, CSS
Frameworks: Node.js
Databases: MongoDB, MySQL
Concepts: REST APIs
Tools: Git, GitHub, AWS, Clerk, Vercel, Render
Additional: Team Collaboration, Problem Solving, Time Management, Communication, Leadership

Coursework

Computer Networks Operating Systems Object oriented programming Data Structures DBMS

Technical Activities

AI Agent Arena Workshop – Paytm Office, Noida
Selected to participate in an AI-focused workshop on AI Ag ents.
India AI Impact Summit – Bharat Mandapam, Delhi
Attended the summit and explored AI innovations, industry trends, and emerging technologies
